Covered in highlights

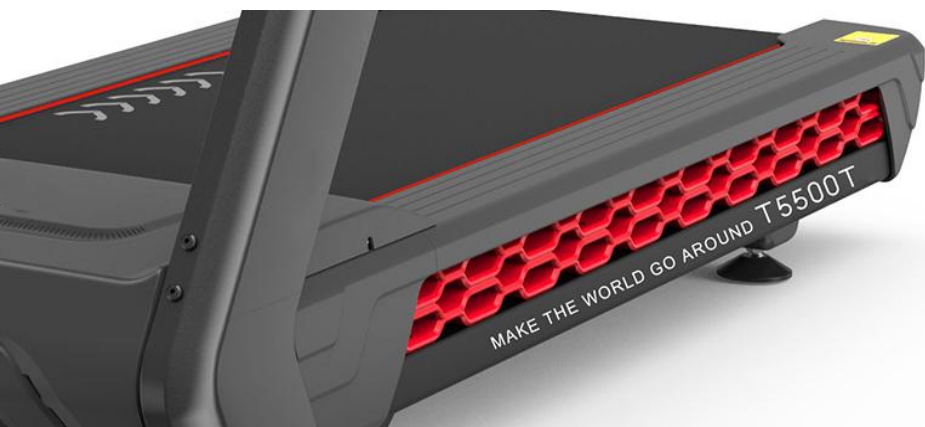

Wireless charging module

Feel the new technology and break free from the constraints of data cables. Easily switch to wireless charging mode to power up your phone for extended battery life.

Adjustable Breeze System

Upgraded built-in fan with adjustable airflow angle, one-button start for a refreshing breeze, providing more power for your workout.

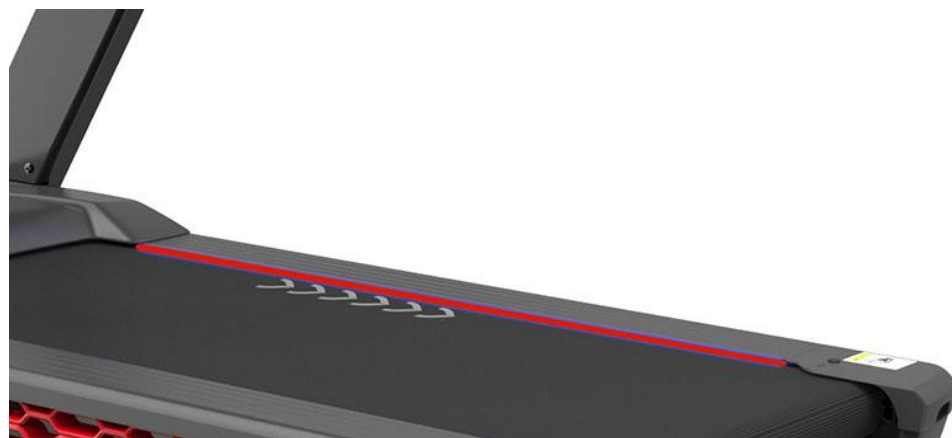

T80mm Full Runway Shock Absorption

A full running platform shock-absorbing strip made of high-elastic material is installed between the buffer zone and the steel frame, protecting the knee joints and providing a more comfortable and safe exercise experience.

LED warning light

The running area is equipped with red LED warning lights on both sides to prevent deviation while enhancing the atmosphere.

60mm engineering fill hole

Upgrade the treadmill maintenance system with ergonomic design, 60mm direct distance to the running belt, making maintenance and lubrication simpler and more efficient.

T5500T Series

Commercial Programmable Treadmill

➤ Product function

21.5-inch TFT touchscreen

A unique 21.5-inch capacitive TFT touchscreen with high-definition display, capable of Wi-Fi connectivity. Users can watch videos and news while working out, with the screen simultaneously displaying key fitness data, enabling exercisers to monitor their fitness status and maintain their workout motivation.

Commercial-grade drives and lift motors

The T5500 series is equipped with an AC motor that reaches a peak of 7 HP, enhancing performance, efficiency, and reliability. It is suitable for various fitness facilities in multi-family residential areas, businesses, small municipal service organizations, and hotels.

Smart adjustable height control

Adjustable incline from 0 to 18 degrees, suitable for individuals of various physiques, providing comprehensive lower limb muscle training. It effectively strengthens and shapes the glutes, quadriceps, and calves through adjustable incline and speed settings.

Bluetooth connection to treadmill, wireless data synchronization

Download and install the "Sport Show" app to control the treadmill's incline, speed, and various workout modes directly from your mobile device. Data synchronizes in real-time, allowing you to share and upload your workout data via your phone, share it with friends on social media, and compete with them.

Main Parameters(T5500T)

Peakhorsepower:	7.0HP	Control Panel	21.5-inch Touchscreen Display
Damping:	T80mmFull-Runway Shock Absorber Strip	Expanded area:	2090*876*1630mm
Speed:	0.5-25KM/H	Packaging dimensions:	2270*970*450mm
AscensionGradient:	0-18%	Bluetooth connection:	YES
RunwayPlatform:	25.4mm thick double-sided pre-waxed running board	USB Charging:	YES
